

## EXCAVATION AND LIFTING ARM

# ARM/DM

### Remotely controlled arm for PT300 D:MINE.

By using the manipulator grapple, the arm is the ideal tool for inspecting and retrieving UXOs. By using its digging bucket, it is the ideal tool for reaching buried UXOs. It can be equipped with a 360-degree rotation, video camera system.

MODEL	ARM/DM300
Head type	Mulcher
Length fully closed (mm)	2304
Length fully extended (mm)	2704
Max digging depth (mm)	2650
Max height (mm)	500
Overall width with stabilizers open (mm)	350
Overall width with stabilizers closed (mm)	46+2
Lifting capacity fully closed (kg)	3000
Lifting capacity fully extended (kg)	500
Max arm rotation circumference (°)	180°
Weight (kg)	2290
