

DEMINEING FLAIL

500/FD/DM

Demining head with flail rotor.

The 500/FD/DM demining flail features a rotor with chains and hammers. The design of the head makes it very efficient over powerful mines. The specially designed frame and flail rotor, along with the materials used, make it extremely resistant to explosions.

Depth 35 cm

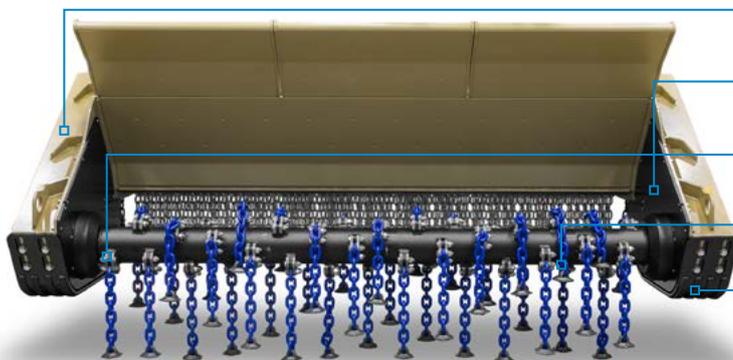

Poly Chain timing belt transmission

Side wear protection plates

Bolt-on chain's protection plates

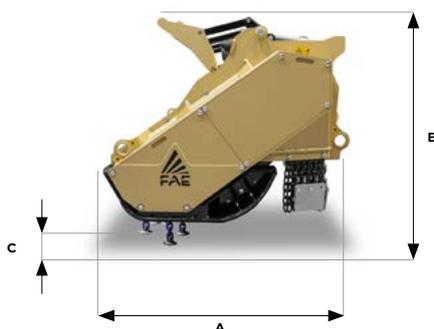

Interchangeable protection chains

Adjustable skids

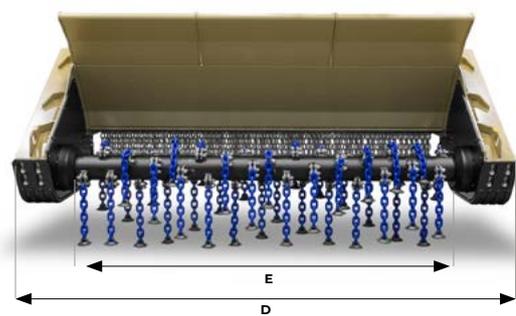

MODEL	500/FD/DM550-275
Head type	Demining Flail
Working width (mm)	2750
Total width (mm)	3516
Weight (kg)	4750
Rotor diameter (mm)	1190
No. flails	42

Data refers to machine as standard. The technical data in this catalogue may be altered without prior notice.

A Total length	1780 mm
B Max height	1650 mm
C Rotor protrusion	350 mm

D Total width	3516 mm
E Working width	2750 mm

FLAILS ROTOR TYPE

FLAIL
